

Project Design Phase-II

Technology Stack (Architecture & Stack)

Date	11 July 2026
Team ID	
Project Name	Heart Disease Analysis
Maximum Marks	4 Marks

S.No	Component	Description	Technology
1	User Interface	Interactive healthcare dashboard	HTML5, CSS3, JavaScript
2	Application Logic	Routing and embedding	Python, Flask
3	Data Processing	Cleaning and preprocessing	Python, Pandas
4	Analytics	Dashboard & Story	Tableau Public
5	Data Source	Heart_new2 CSV dataset	CSV
6	Storage	Project files	Local File System
7	Deployment	Flask + Tableau	GitHub, Tableau Public
8	Infrastructure	Execution environment	Windows, Browser

S.No	Characteristic	Description	Technology
1	Frameworks	Libraries used	Flask, Pandas, HTML/CSS
2	Security	Anonymized analytics	GitHub Access
3	Scalability	Supports future datasets	Modular Flask

4	Availability	Accessible online	Tableau Public
5	Performance	Optimized dashboard	Tableau Optimization
